DETAILED ACTION

Claims 1-14, 17-19 are pending in the instant application.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on a PCT application filed on January 15, 1999. It is noted, however, that applicant has not filed a certified copy of the pending PCT application, nor of the foreign applications filed January 15, 1998 or December 23, 1998 as required by 35 U.S.C. 119(b).

Sequence Compliance

Errors which appeared in the CRF submitted August 1, 2001 were corrected by STIC. Please see attached, corrected copy of the sequence listing.

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

Please provide appropriate SEQ ID Nos. For the sequences listed in figures 1-4, 11, 12 and on page 6 of the specification. See the accompanying Notice to Comply.

Art Unit: 1635

Claim Objections

Claims 5 and 7 have been amended in Paper No. 3, filed June 15, 2001. However, the marked up copies of these claims have been filed with the clean copy of amended claims 1, 3, 8, 11 and 12. Please provide both a clean version and a marked up version of amended claims 5 and 7.

Claim 11 was both canceled and amended in the communication filed June 15, 2002, Paper No. 3. Claim 11 has been examined as amended in Paper No. 3, filed June 15, 2001. Please clarify as to whether this claim has been canceled or amended as presented in amended form in Paper No. 3.

A separate (pre)amendment dated July 16, 2002, adding new claims 21 and 22 has not been entered because the amendment was not signed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear which promoter is being described in line 1 of claim 6.

Claim 6 recites the limitation "the T7 polymerase gene" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1635

Claim 8 recites the limitation "the first and second structure-stabilizing stem loops" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim.

Claims 1-14, 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear whether the claimed vectors comprise ribozyme sequences which target both CCR5 and CXCR4 within a single vector, or which target a single target gene selected from CCR5 and CXCR4. Clarification is requested.

Allowable Subject Matter

Claims 1-14, 17-19 appear free of the prior art.
